

September 17, 2012

To the Patients of Dr. Lynn Gurney:

It is my distinct pleasure to commend, to all of his present and future patients, Dr. Michael Lynn Gurney, D.D.S., M.S., a June, 2012 graduate of the Advanced Prosthodontics Education Program, College of Dentistry, The Ohio State University.

Dr. Gurney came to Ohio State as an Honors Graduate of Creighton University School of Dentistry. From the very beginning, and throughout his three years of graduate study, he excelled in all the didactic and clinical disciplines of prosthodontics. He continually demonstrated unique skills in the treatment of patients with many varied complex clinical problems, and the resultant outcomes were consistently excellent. Dr. Gurney graduated from our Program with high honors in both his research and clinical achievements.

Above all else, you will find, as we did, that Dr. Gurney is a very warm, sincere, caring professional, an excellent family man, and an exemplary human being. At The Ohio State University College of Dentistry, we have the very highest regard for Dr. Gurney, and can assure you that this exemplary prosthodontist will serve your professional needs with the very highest standards of dental care.

Sincerely,

Ernest D. Svensson, D.D.S., M.Edu., F.A.C.P.

Associate Professor

Former Director, Advanced Prosthodontics Education Program
